

WASPS OF THE SEA. "SUBMARINE CHASERS"

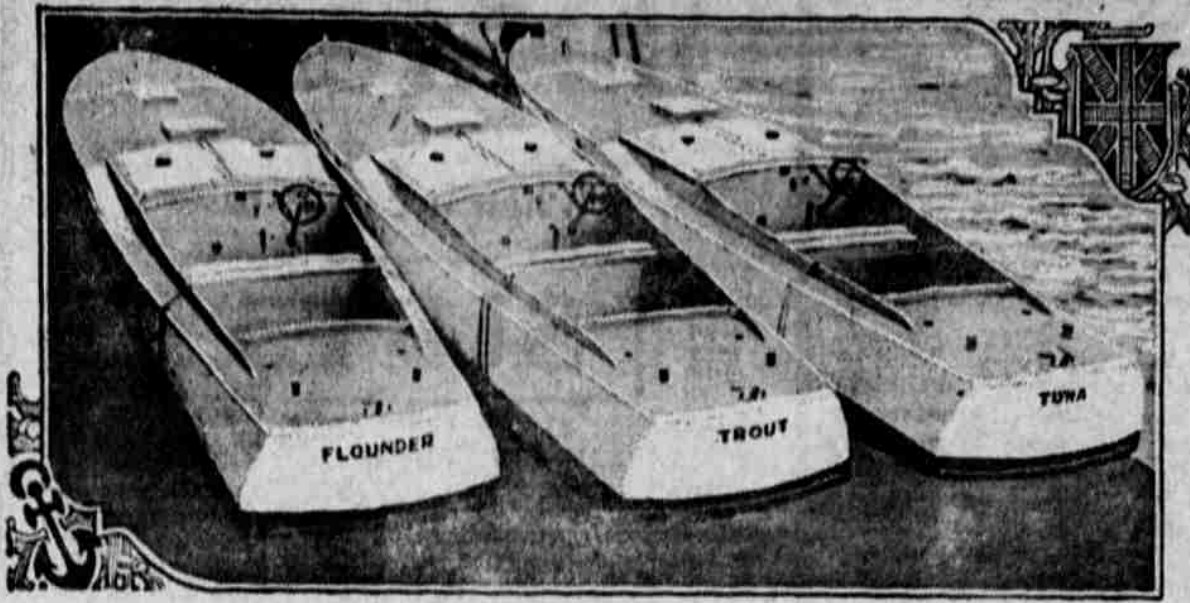

Photo by American Press Association.

Swift motorboats, part of an order of forty built in South Boston for Great Britain. These "submarine chasers," as they are called, are 100 horsepower, forty feet long and capable of making twenty-five knots in running down a submarine. The boats are very heavily constructed forward, evidently with the idea of mounting a small gun or for ramming. They accommodate two or three men.

Our First Glass Factory.

The first mention of the manufacture of glass in the United States is in Captain John Smith's "History of Virginia." He speaks of the founding of a factory at Jamestown in 1615 and of a second one seven years later. The work was coarse and was confined chiefly to bottles. In 1779 factories were established in Temple, N. H., and in 1795 the present great industries in Pittsburgh were founded. By 1813 the Smoky City had five glass making plants, of a total valuation of \$100,000.

Eyes of a Giraffe.

No matter from what direction you may approach the giraffe, the top heavy looking animal is sure to discover you. It has been called the original "rubber-neck." It is not generally known that nature, because of the height of its eyes from the ground, has supplied it with a talent peculiarly its own for making observations. As a matter of fact, a giraffe can see in all directions at the same time without moving its head. The eyes are large and prominent and so placed at the side of the head that, bulging out as they do, they are capable of seeing backward as well as forward.

Origin of the Word "Farm."

The origin of the word "farm" is as follows: In the Saxons' time the estates which the lords of manors granted to the freemen were at first but for a term of years, with a render of a rent, which in those days was of corn and other products. The leases so made were called *fermes* or *farmes*, but times ensuing turned the produce into money and terms of years to terms of life and inheritance.—Westminster Gazette.

A Marvel of Chemistry.

One of the most marvelous things is the burning of a jet of hydrogen gas in liquid air. The smoke that arises from the combustion floats off in the air as pure snow, a flame burning brilliantly in the midst of a liquid, with snow given off for smoke!

VALUE OF BORIC ACID.

Its Use as a Disinfectant and as a Healing Remedy.

A physician writes to Farm and Fireside saying "that the very best disinfectant known to science does not seem to be known to some people at all."

"I allude to boric acid or, as some people call it, boracic acid. It is exceedingly efficient, safe and economical. It is a white powder and makes the best dressing for wounds that modern doctors have ever discovered."

"In using peroxide or hydrogen it is always necessary to remember that while it is a disinfectant it is not a healing remedy at all, as it is acid in reaction and stimulating rather than healing to wounds."

"Boric acid is mild and safe in its action, promotes rapid healing of wounds, can be used as a dressing powder or dissolved in water as a cleansing solution. Boric acid in solution makes an excellent gargle for sore mouths or a lotion for sore eyes, and as it is not at all expensive a pound box of it should form part of the domestic supplies of every family."

"Always remember that boric acid is nonpoisonous in any ordinary quantity usually used, while bichloride of mercury and carbolic acid are exceedingly poisonous."

A GOOD FRIEND

A good friend stands by you when in need. Grants Pass people tell how Doan's Kidney Pills have stood the test. Mr. Trefren endorsed Doan's over three years ago and again confirms the story. Could you ask for more convincing testimony?

W. A. Trefren, 731 Highland Ave., Grants Pass, says: "I suffered for a long time from my back and kidneys and never found anything that would give me much relief until I began using Doan's Kidney Pills. They strengthened my back and eased the dull pains that had settled in it across my kidneys." (Statement given March 24, 1913.)

On March 26, 1916, Mr. Trefren said: "I am still a strong booster for Doan's Kidney Pills, for I don't know of anything their equal for lame back and kidney trouble. They always do me a wonderful lot of good whenever I have to take them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Trefren has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

ILLINOIS ELECTION BEING HELD TODAY

Chicago, Sept. 13.—The most bitter political campaign Illinois has experienced in years has now gone to the court of last resort—the voters.

One of the tightest races ever started for a republican governorship was still in progress today as voters went to the polls to select one of three candidates to run in the November elections. Colonels Frank O. Lowden, Frank L. Smith and Morton Hull are the candidates.

On the democratic side the race is just as hot. Sullivan democrats have lined up against Governor Dunne, opposed for the nomination by Wm. Brinton, and are going the limit to put their man across.

Aside from the governorship, the two major parties will be nominating a complete state ticket, twenty-seven members of congress, including two congressmen-at-large and two district members. Women will be entitled to vote for only local offices. By a ruling of County Judge Thomas Scully, voters will not have to give their ages.

"It is placing a premium on youth to force people to tell their ages," said Scully. "It is not fair. Besides, if they don't want to tell their right ages they won't, so what's the use of having them tell it?"

BULGARIANS DEFEAT ITALIANS IN GREECE

Berlin, Sept. 13.—In the first encounter between Bulgarian and Italian troops of the present war, two Italian companies were defeated near Butkovodumya and thirty prisoners were taken by the Bulgars, said an official statement from Sofia today.

The Bulgarian statement reported the repulse of concentrated attacks in the Balkans, and also announced that Italian warships had appeared along the Aegean coast and in the harbor of Kavala, where they were attacked by Bulgarian hydroplanes.

The Bulgarian advance in Roumania continues.
